

LiPo Fuel Gauge:

QST PU to reset bat mon
SOC Alert will PD on ALT

TPS61200 DC-DC Boost:

Using Oleg's<Circuits at Home> design from Sparkfun Lipo powercell, works well enough no yak shaving here!
UVLO set to about 2.6V with a fixed 5V output with lower draw resistors as per DS spec GJ Oleg

LiPo Charger:

Rprog = 1000v/desired mA charge rate
No therm used 10k PUD to ensure operation
